“THE RIGHT THING TO DO”

Written by Tom Shanahan, award-winning sports-writer.

A breathtaking read of heroism, team and individual efforts to allow Black athletes to compete at the college football level.

Game (Changers) of the Century

(Docuseries) a Gymnopedie Films and Flying Free

Films production will guide you through a decade

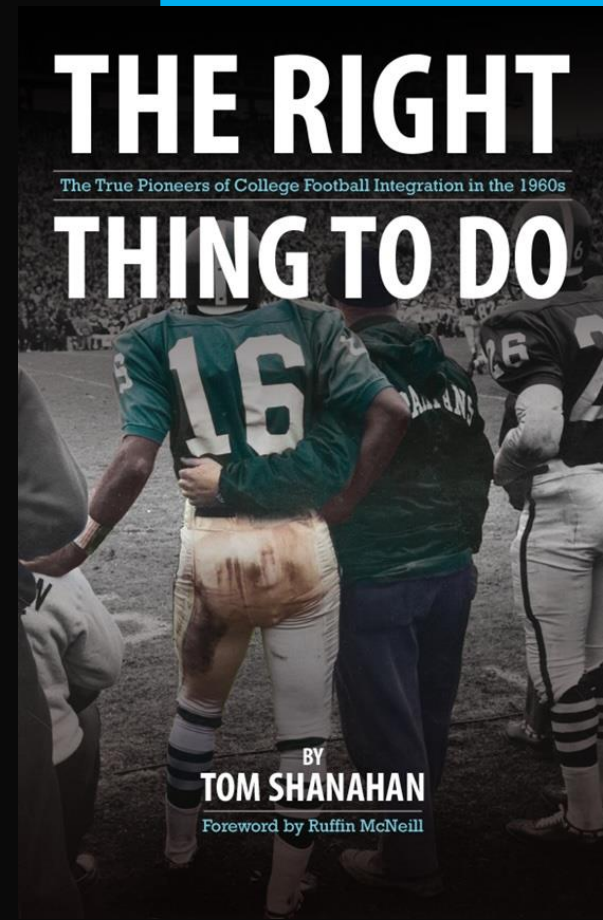

of stories about the true pioneers of integration in

college football. The four-part docuseries is inspired

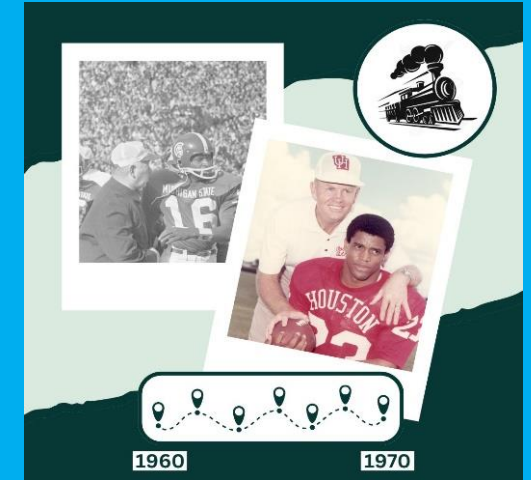

by Tom Shanahan’s book “THE RIGHT THING TO DO.”

These stories are being told for the very first time in

our country's history.

Entrepreneur - Worked as
a Contracts Advocate for
Black Athletes in
Professional Sports

Our Expertise

- Seeking, finding and developing inspirational stories for film production.
- Developing PR and investment opportunities within the film and documentary space.

The Gymnopedie Films team is bound by a common thread

An ideology; we have faith and hope we as a people will restore grace over greed. Our messages through film will assist our brethren with the resistance to the withering of the free human spirit and societal development for personal gain.

The Tenderdyn Arts Studio actualizes artistic vision to help create an artist's vision

The Gymnopedie Films team is provided state-of-the-art technology to produce “A” list film quality combined with immersive sound at a fraction of the cost of traditional methods. Tenderdyn’s invested partnership with Gymnopedie Films and the direct access to this state-of-the-art technology, allows for artistic autonomy which has been absent in the movie industry for many years. The future of both audio (Dolby Atmos and Apple Spatial) visual (Apple Immersive and Spatial) is immersive, far beyond the typical (VR) Virtual Reality space. The partnership between GF and Tenderdyn Arts is the epitome of the future of film making. We are “THE NEXT BEST THING!”

Game (Changers) of the Century

A four-part docuseries, inspired by Tom Shanahan's book "THE RIGHT THING TO DO." Tom's relentless research and documentation tells how Michigan State's head football coach, **Duffy Daugherty**, began the process of the integration of Black athletes into college football in the late 1950's through 1970 and beyond. Duffy's effort and influence of his Michigan State's 'coaching tree' helped end unwritten quotas limiting Black athletes at universities throughout the nation to a half dozen or so. Duffy's efforts helped open the doors to desegregating southern college football.

We are seeking investors to help our team tell these stories for the very first time in history. Our seed money raise is open for your review.

Game (Changers) of the Century

This docuseries features stories told for the first time in our country's history. They include the courageous actions of the 1961 University of Colorado football team, led by Captain Joe Romig and John Meadows. The boycott of the 1962 Orange Bowl was their battle with the social injustices of the time.

The Orange Bowl backed down over Jim Crow in Miami.
